

OBJECTIVE

Dynamic and results-oriented Full Stack Developer with 2+ years of experience in web development and 1 year specializing in React Native app development. Adapt at creating dynamic and user-centric web solutions, and skilled in leveraging React Native to build cross-platform mobile applications. Seeking a challenging role where I can contribute my expertise in both web and mobile development to deliver innovative and impactful software solutions .

EXPERIENCE

AFRIQUE PAY LIMITED

February 2023 - Present

Full Stack Developer (Remote)

- Collaborated seamlessly with developers, designers, and system administrators to proactively identify and implement innovative features, enhancing the project's functionality and user experience.
- Developed and optimized reusable code and libraries to enhance productivity, scalability, and maintainability for future projects, showcasing a commitment to efficiency and quality in software development.
- Exemplified my commitment to software craftsmanship by consistently producing clean, maintainable code, resulting in the creation of highly functional and user-friendly web applications.
- Proficient in identifying and resolving complex issues within applications, with a proven track record of effectively debugging and troubleshooting to ensure seamless functionality.
- Orchestrated seamless collaboration with the Front-end developer, intricately fusing user-facing elements with server-side logic, resulting in a highly responsive and cohesive application interface.

WICONCONSULTANTS NIGERIA LIMITED

September 2022 - Present

Full Stack Developer (Remote)

- Led cross-functional collaboration with team members and key stakeholders to deliver innovative and impactful software solutions, driving success through effective team work and communication.
- Delivered high-impact, user-centric features that significantly improved the product.
- Designed and implemented robust back-end services, orchestrating intricate business logic and seamlessly integrating third party APIs to enhance the application's functionality and performance.
- Designed, developed, and consistently optimized high-performance database applications, ensuring seamless and efficient data management.
- Delivered exemplary code, characterized by impeccable quality and reusability, while consistently adhering to industry best practices, ensuring the highest standards of software development.

PRO COLLEGE NIGERIA LIMITED

April 2020 - September 2022

Software Developer (Hybrid)

- Collaborated closely with cross-functional teams of IT professionals and product managers to conceptualize innovative software solutions, leading the way from initial ideation to the successful delivery of polished, market-ready products.
- Optimized website performance and scalability, ensuring lightning-fast loading times and smooth user experiences, leading to a significant improvement in overall site efficiency and customer satisfaction.
- Architected and engineered the front-end framework for the websites and web applications, driving user-friendly, responsive, and efficient designs that significantly enhanced user experiences.
- Designed, developed, and optimized the core back-end services, driving the application's reliability, scalability, and performance.
- Utilized cutting edge technologies to enhance system efficiency, reduce response times by 30%, and ensure seamless data flow.
- Designed, developed and seamlessly managed a robust set of APIs, optimizing system performance and enabling efficient data exchange across multiple platforms. Achieved a 30% reduction in data transfer latency, resulting in improved user experience and streamlined business operations.
- Developed and optimized database architectures to enhance application performance, ensuring seamless data management and retrieval for robust and efficient solutions.
